v.1
1852-53

	Pages.
Academy of Sciences, Paris, Prizes of	48
Accidents, Railway	8
" in Mines	23
Accidental Discoveries	207
Address by Mr. Justice Draper	217
Agricultural Engineering	12, 39
" Hall at Toronto, (Prov. Show.)	51
" Machinery and Implements	56
" Extracts	111
" Products of the United States, 1850	119
Allan, G. W. on the land birds wintering in the neighbourhood of Toronto	169
Alcohol, new	118
Almanac, Nautical, Davis' Report on	129
Amazon, the ship	24
America, North, woods of	74
American Journal of Science and Art	114
Ammonical Liquor	103
Analysis of the Provincial Exhibition	64
Anastatic Printing	95
Annual General Meeting of the Canadian Institute	97
" Conversazione do. do. do.	202
Apparatus for collecting specimens of Natural History	177
Architectural Notices	51
Arrow, Anglo-Saxon	24
Artesian Well, St. Louis	237
Artificial breeding of Fish	18
Association, Provincial Agricultural	23
" British, for the advancement of knowledge	81
" " Proceedings of, in September, 1852	95
Associations, Farmers	22
Astronomical Clock	215
Aurora Borealis, theory of	95
" " at Toronto, (see meteorological reports)	
Australia, Gold Fields of	23
Battery, Golding Bird's	16
" New voltaic	17
" Graphite	96
" Maynooth	243
Bees, Remedy for the stings of	189
Bessemer's new mothod of manufacturing sugar	116
Binocular Microscope	144
Birds, directions for skinning and stuffing	172
Birds wintering near Toronto	169
Bogs, Irish	265
Boiler, Steam, prevention of incrustations in	24
" Explosions	24
Bond, W. and Sons, Boston	215
Boring operations	216
Botanists	79
British Seas, Natural History of	109
Brock Monument	22, 41
Burns, Death of the Great-Grandchildren of	168
Cabinet Department, Provincial Show,	68
Calf, Prize, Notice of	63
Caloric Engine, Ericsson's	249, 271
Canada, Telegraph Lines in	21
" in 1852	32
" at the Great Exhibition	38
" Canals of	46, 91, 118.
" Progress of	51
" Hourly thermometric corrections for	77
" Geological Survey of	112
" Rocks of	124
" Mineral Springs of	151
" Upper, Census of	96
Canadian Railways	102
" Productions of the Forest	73
" Shipping	166
Canadian Institute, History of	3
" " Correspondence of	14, 137
" " Objects of, Circulars of	25
" " Officers and members of	49
" " Regulations of	50
" " Pecuniary resources of	73, 99
Canadian Institute, Council of for 1852-3	97
" " Transactions of 50, 97, 121 145, 147, 151, 161, 184, 202, 217, 218, 220, 223, 254.	
" " Annual Address of the President	121
" " Memorial to the three branches of the Legislature	145
" " Annual Conversazione	202
" " Address of the Members to Capt. Lefroy, R.A.,	204
Canadian Journal, objects of	5, 25
Canal Tolls	46, 91
Candles, manufacture of	158
Caoutchouc, new compound of	264
Cart, Harvest	13
Cause of the high temperature of rivers	96
Centrifugal Action, application of	11
Census of Upper Canada	96
Cherriman, Professor, on the Atmospheric Phenomena of Light.	6, 25
" " on the Provincial Currency	177
Charity	120
Chemistry, application of	10
" Graham's Elements of	19
Chimney of St. Rollox's Chemical Works	12
Chromatic Photo-printing	216
Clock Electric	44
Cloves of Commerce,	116
Coal Fields, the origin of	279
Coal in Ireland	266
Coal Gas, manufacture of	28, 77, 158
Commissioners of Public Works, Report of	90
Copper, ductility of	262
" sources of the supply of	266
Corrections, Thermometric, for Canada	77
Correspondence—	
Canadian Institute and Society of Arts	14, 112
Natural History Society of Montreal	137
Memorial of the Institute	145
Reply of Provincial Secretary to Memorial	184
Railroad Termini and Pleasure Grounds	233
Mineral Wealth of Nova Scotia	241
'Rara Avis'	260
Coloured snow, hail and rain	261
Croft, Professor, on Gas Patents	28, 77
" " on the Mineral Springs of Canada	151
Crystal Palace, New York	69
Currency, the Provincial	177
Dade, Rev. C., notice of Indian Remains	6
Darien Ship Canal	236
Davis, Report on the Nautical Almanac	129
Deep Sea Soundings	264
Diamond, the Koh-i-noor	95
Digging Machine	244
Draper, Mr. Justice, Address of, before Canadian Institute	217
Dublin Great Industrial Exhibition	253-265
Earth, Figure of	85
Earthquake, Shock at Toronto, 13th March, 1853	185
East India Company, Finances of	24
Educational Department, Provincial Show	61
Eggs, importation of in England	24
" Preservation of	116
Electricity, Galvani, Lecture on	264
" " Conductability of Minerals for	264
Electric Light	118
" Clock	44
" Time Ball in the Strand,	47
" Current, force of, Ohm's formula	228
" Light and Colour Manufacture	242
" Telegraphing, Progress of	72
" Telegraphs in India	120
" " in Canada	21
Electrotyping, operations of the United States Coast Survey	227
Engineering, Agricultural	11, 39
Entomological Curiosity	189
Ericsson's Hot Air or Caloric Engine	249, 271
Ether, Butyric	10
Exhibition, Provincial	23

369713

XUM

	Pages.
Exhibition, Provincial, Analysis of	64
" Great, Report of Commissioners	38
" " Extracts from Lectures of	38, 135, 158
" " Irish Industrial	253–265
Faraday, Professor, on Physical Lines of Magnetic Force	31
" " on the Magnetic Force	191
Farm Machinery	13
Filter, Syphon	11
Filter-tap, Dodd's Registered	12
Fine Arts in Finland	261
" Department of, Provincial Show	60
Firearms	216
" Composition for	189
Fish, Artificial Breeding of	18
Fishes, directions for Preserving	173
Flax, Cultivation of	88
" and its Products	268
Flavouring Matter of Fruits	17
Fleming, Sandford, Patent Centre-rail Railway	93
" on the Valley of the Nottawasaga	223
Floral Hall, Provincial Agricultural Show	59
Flour Mill, Patent	245
Food, nutritive, value of	247
Forbes, Professor E., on the Natural History of the British Seas	109
Forests, the Treasures of Canadian	73
Fossils from the Ottawa River	221
Galvanic Current, Motion of Fluids in	142
Gas Patents	28, 77
" Manufacture of, from Wood	165
" " from Coal	158
Gelatine	9
Geology, brown Coal deposit in Brandon	139
" Notes on the Geology of Toronto	147
" On the Rocks of Canada	124
" On the composition of certain Rocks	168
" On the remains of Reptilians in Nova Scotia	237
" On the origin of Coal Fields	279
" On the Rocks of North Wales	241
" Manufacturing Materials in the Eastern Townships	240
" The Progress of	276
Geological Survey of Canada	112
Glue, the Preparation of Liquid	168
" Liquid	117
Gold, Distribution of	17
" Fields of, in Australia	23
" How to tell	243
" In Canada	255
" In England	261
" In Ireland	267
" Weighed in the Bank of England by machinery	264
Gold-digger, Scientific	237
Golding Bird's battery	16
Government aid to various Institutions in Canada	261
" School of Mines (Britain)	110
Great Britain, Railway traffic of	120
" Revenue and Expenditure of	96
Hall, Floral, Provincial Agricultural Show	59
Halo, account of one observed near Toronto	27
" " " Moose Factory	27
" Lunar	285
Harvest Cart	13
Herschell, Sir W., on Photography	141
High Bridge, Portage, New York	68
Hind, Professor, Notes on the Geology of Toronto	147
Hints to the Beginner in Water Colours	79
History of Canadian Institute	3
History and Astronomy	216
Hodder, Professor, on the Poisonous Plants in the neighbourhood of Toronto	204, 218
Horse and its Rider	154, 180, 198
Horses exhibited at the Provincial Show	62
Hunt, T. S., Chemist and Mineralogist to the Provincial Geological Survey, Report	114
Incrustations, Prevention of in Steam Boilers	24
India, Electric Telegraphs in	120
Indian Remains, notice of	6, 160
Indian Population of British America	193
Infusoria, the Larvæ of Intestinal Worms	18
Ireland, Population of	24
Irish Submarine Telegraph	33
" Industrial Exhibition	265
Iron, Cleveland, Yorkshire	18
" Smelting	105, 135
" Coating with Copper	165
" On the increased strength of	222
" Trade	119
" In Ireland	266
" Quantity produced in England	266
" Tinning	288
" Worth of by the addition of labour	266
Isinglass in Canadian fish	15
" Application of	9
Jupiter, the Planet	270
Lachlan, Major, Correspondence of	137
Ladies' Department, Agricultural Show	60
Leather, the Manufacture of	137
Lead, distribution of in Ireland	267
Lead Pencils	104
Lectures, Exhibition	9
Leafing and Flowering of Plants, observations on the	182, 201
Lefroy, Capt. J. H., Royal Artillery, remarks on Thermometric Registers	29, 75
" " On the probable number of the Native Indian Population of British America	193
Letters Patent of Invention	184
Libraries, Public	286
Light, Atmospheric Phenomena of	6, 25
" Epipolic dispersion of	82
" Invisible rays of	115
" Printing by the action of	216
" Electric	118, 242
Lightning Conduction	17
Limestones, Circular of Canadian Institute respecting	26
" Human foot-prints in	95
Liquid Manure	12
" " effects of	112
" Glue	116
Logan, W. E., Testimonial from Prince Albert to	42
" On the Rocks of Canada	125
Locomotive, new	116
Lovelace, Countess of	119
